Out a board and our money

Reviewed in the United States on December 25, 2020

My son really enjoyed riding in this for a couple hours then the battery died. It won't charge. The company however has been fantastic so far with the offering to fix it. I will update when I get it fixed on the ease and completed work. He said it was extremely easy to ride and recommended it. Update they deleted their FB account which was our sole means of contact. They took our board promising to fix and return it then nothing so we are out the board and the money. Very disheartening that people like this exist in business. I hope Amazon honors our purchase and contact details we've had with theme

It seams to be good quality (heavy duty) product. Our came defective, we noticed it as soon we took it out of the box that it comes off in the middle. If you don't push it back, it completely comes off and splits in 2 halfs, cables inside are visible. My 13 y/o son did test drive inside the house (it was his birthday gift), at first we weren't sure is it normal that it comes off like that (pic 1) or not because this is our first hoverboard. Next day this hoverboard stopped working on one side (last picture, one side is completely unresponsive), the other side beeps for few seconds and comes off as well. I just requested product replacement, I like this product but for \$300, I would like to get something that works and doesn't come already broken. We'll see what I'll get this time.

Will make any kid very happy!! Everyone will want to ride the scooter!

Son and father loveeeee this hover board and scooter. After 30 seconds of understanding how the scooter controls work, my son was hooked. His father made him get off it so he can try it. Lol. They spent the entire weekend riding it. They rode through grass, a neighbors flower bed, and a little in the street. We can confirm the all-terrain.;)

The scooter sits very very low to ground - we live outside the city and don't have a lot of sidewalks so I only allow my son to use it our driveway or through the yard.

The speaker is loud and clear - if I see my son riding, sometimes I pair it to my phone and put on some old school jams - drives my son crazy, lol.

Excellent customer service

Reviewed in the United States on October 19, 2020

10-19-2020; We purchased this as a gift for Christmas 2019. Our grandson loves it. Not long after, we had trouble with the charger. Gyroor service replaced it immediately.

Recently, it began to run in circles. I wrote Gyroor service on a weekend. They replied almost immediately with a simple recalibration fix that worked perfectly. Our only remaining issue is that the plastic seat is cracked. They told us that it was no longer covered under warranty, but that they would send a replacement seat at no charge.

I highly recommend this Gyroor product, and commend them for their excellent customer service.

The hoverboard died first time around but support and assistance from gyroor was on point. They were super fast to respond and make things right!!! My daughter loves it and I love the hassel free help!
